FOREWORD

The Tyrolean mountain hunt – an unforgettable experience amidst the majestic Alps. Here, where the peaks kiss the clouds and the valleys are shaped by untouched nature, hunting becomes a profound encounter with the wilderness.

In these pristine heights, passionate hunters find not only challenge and adventure but also a respectful harmony with nature and its inhabitants. The Tyrolean mountain hunt offers unique opportunities to observe and hunt noble game in its natural environment.

With centuries of tradition and a deeply rooted awareness of sustainability and conservation, hunting in Tyrol is more than just a sport – it is a philosophy that places respectful interaction with nature at its core.

Let yourself be enchanted by the unique beauty of the Tyrolean Alps, feel the wind on your skin, and experience the hunt in one of the most awe-inspiring regions of Europe. Your adventure begins here – in the Tyrolean mountains.

A person wearing a dark shirt and a hat is lying on the ground in a forest, aiming a rifle with a scope. The background is a dense green forest with sunlight filtering through the trees.

HUNTING EXPERIENCE AT THE SOURCE

“To experience and feel mountain hunting means to walk the path that leads into trackless wilderness, to unravel secrets, to witness overwhelming splendor. To feel fear and transience... to practice renunciation. Mountain hunting conveys a touch of freedom, is a deep love for a piece of home, and puts the significance of humankind into proper perspective.”

ERNST RUDIGIER

GENERAL INFORMATION

Requirements for Hunting in Tyrol

To obtain a Tyrolean hunting license, you must present a valid domestic hunting permit. The guest hunting license, valid for 10 days, costs €50.00.

Additionally, you will need:

- ▶ A suitable firearm (ideally discussed in advance)
- ▶ Appropriate ammunition
- ▶ A properly adjusted rifle scope

A test shot is required before the hunt begins.

Deposit

Upon accepting the game to be hunted, we kindly ask you to make the required deposit within 14 days of receiving confirmation.

Harvesting Game

Hunting is always conducted individually. The game to be harvested must be discussed in advance and must comply with the approved culling plan. Harvesting may only take place once the game has been identified and released by the hunting guide. There is no entitlement to a specific quality or size of the trophy.

All fees are binding once the game has been harvested, even if the animal does not meet the expected quality or desired trophy standards.

Trophies

Trophies are boiled and handed over to the hunter. Ownership is transferred only after full payment of the total invoice and submission to the mandatory trophy inspection. The hunter is responsible for providing the trophy to the hunting authorities for the required inspection at their own expense. Shipping or pickup of trophies is at the hunter's cost and risk. The venison (including hide) remains with the hunting management for utilization. If you wish to have the trophy mounted, we are happy to recommend a reputable taxidermist.

Trophy Boiling Fees:

- ▶ €50.00 (chamois and roe deer)
- ▶ €120.00 (red deer)

Daily Guide Fees

- | | |
|-----------------|---------|
| ▶ Red deer: | €200.00 |
| ▶ Chamois: | €200.00 |
| ▶ Marmot: | €80.00 |
| ▶ Black grouse: | €150.00 |
| ▶ Roe deer: | €200.00 |
| ▶ Alpine ibex: | €200.00 |

Morning or evening stalking for red deer and roe deer:	€100.00
--	---------

if not successful:	€50.00
--------------------	--------

Hunting is only possible with a minimum stay of 4 days at Hotel Falknerhof.

Test Shot / Missed Shots / Hunting Weapon

Before the hunt begins, at least two test shots are required in the presence of the hunting guide. If, for any reason, no test shot is taken in the guide's presence, the fee listed under the game harvesting charges will be applied in the event of a missed shot (no hit). The use of full metal jacket bullets is strictly prohibited.

Shooting range fee: €10.00
Rental weapon: €50.00

Wounded Game

Shots should only be taken from the correct distance and under the best conditions to ensure a clean kill. Wounding game is strongly discouraged. If it occurs, the hunt will be paused and a blood-tracking dog will be used.

If a wounded animal is found after the guest's hunting stay has ended, the hunter is required to pay the difference between the wounding fee and the full game harvesting fee. The trophy will then be handed over to the hunter.

Blood-tracking dogs must be paid for by the shooter.

Dogs

Bringing hunting dogs requires prior arrangement.

Liability

All hunting activities and travel within the hunting grounds are at your own risk.

Mountain Rescue Tyrol / Niederthai

Become a sponsoring member of Mountain Rescue and benefit from the worldwide mountain cost insurance for the whole family.

You will receive worldwide cover for search, rescue and rescue costs up to €25,000, access to the online shop with selected brand products and the exclusive sponsor magazine with valuable tips for your next mountain tour.

Annual fee: €36.00

We proudly support the Mountain Rescue Service in Niederthai, and we are especially proud to have several volunteer rescuers among our team here. When signing up, please consider selecting "NIEDERTHAI" as your local rescue station.

On behalf of the Niederthai Mountain Rescue Service, we say "Vergelt's Gott" (heartfelt thanks) for your contribution.

HUNTING CHECKLIST

- High-mountain suitable boots and mountain-appropriate hunting clothing
- Pocket knife
- Warm jacket or coat
- Backpack with at least 35-liter capacity
- First aid kit
- Binoculars
- Hunting stick / mountain stick
- Sufficient ammunition
- Spare clothing
Change of underwear
- European firearms pass and hunting license
- Gloves

Please note: Snow can fall in our mountains even in July or August.

In Austria, hunting is based on an ancient tradition of Germanic origin.

One does not hunt for the sake of shooting or for the meat. The philosophy of hunting is centered on seeking out the game, stalking, correctly identifying it — and only then on harvesting it.

- Hat – no matter the season
- Headlamp + spare batteries
- Water / thermos flask

A word of advice to hunters:

Respect local customs. A hunter, even when carrying a rifle or their game, is always welcome in Tyrol.

Peter Falkner

WAIDMANN'S HEIL!

HIGH-ALPINE HUNTING IN NIEDERTHAI

An exciting high-alpine hunting experience along the main ridge of the Alps. Gneiss and slate shape the geology of this region, with spruce being the dominant tree species. In many areas, however, the landscape is enriched by larch trees, thriving stone pines, and higher up, dense dwarf pine zones.

Mountain fitness, physical endurance, good health, and proper equipment are essential. Forest roads are scarce, and multi-hour ascents and stalks beyond 2,000 meters altitude are standard.

Hunting takes place from the valley floor at 1,100 m up to the glacier region at over 3,000 m. You might encounter a wide variety of wildlife – from ducks to alpine ibex.

A unique and ecologically valuable feature of this region is the possibility to observe game across ridge lines.

The stalk through forest and alpine terrain is the primary hunting method. However, sufficient raised hides are available for

traditional hunting of red and roe deer.

Game species available for hunting:

- ▶ Chamois
- ▶ Roe deer
- ▶ Red deer
- ▶ Black grouse
- ▶ Marmot
- ▶ Mountain hare and ptarmigan

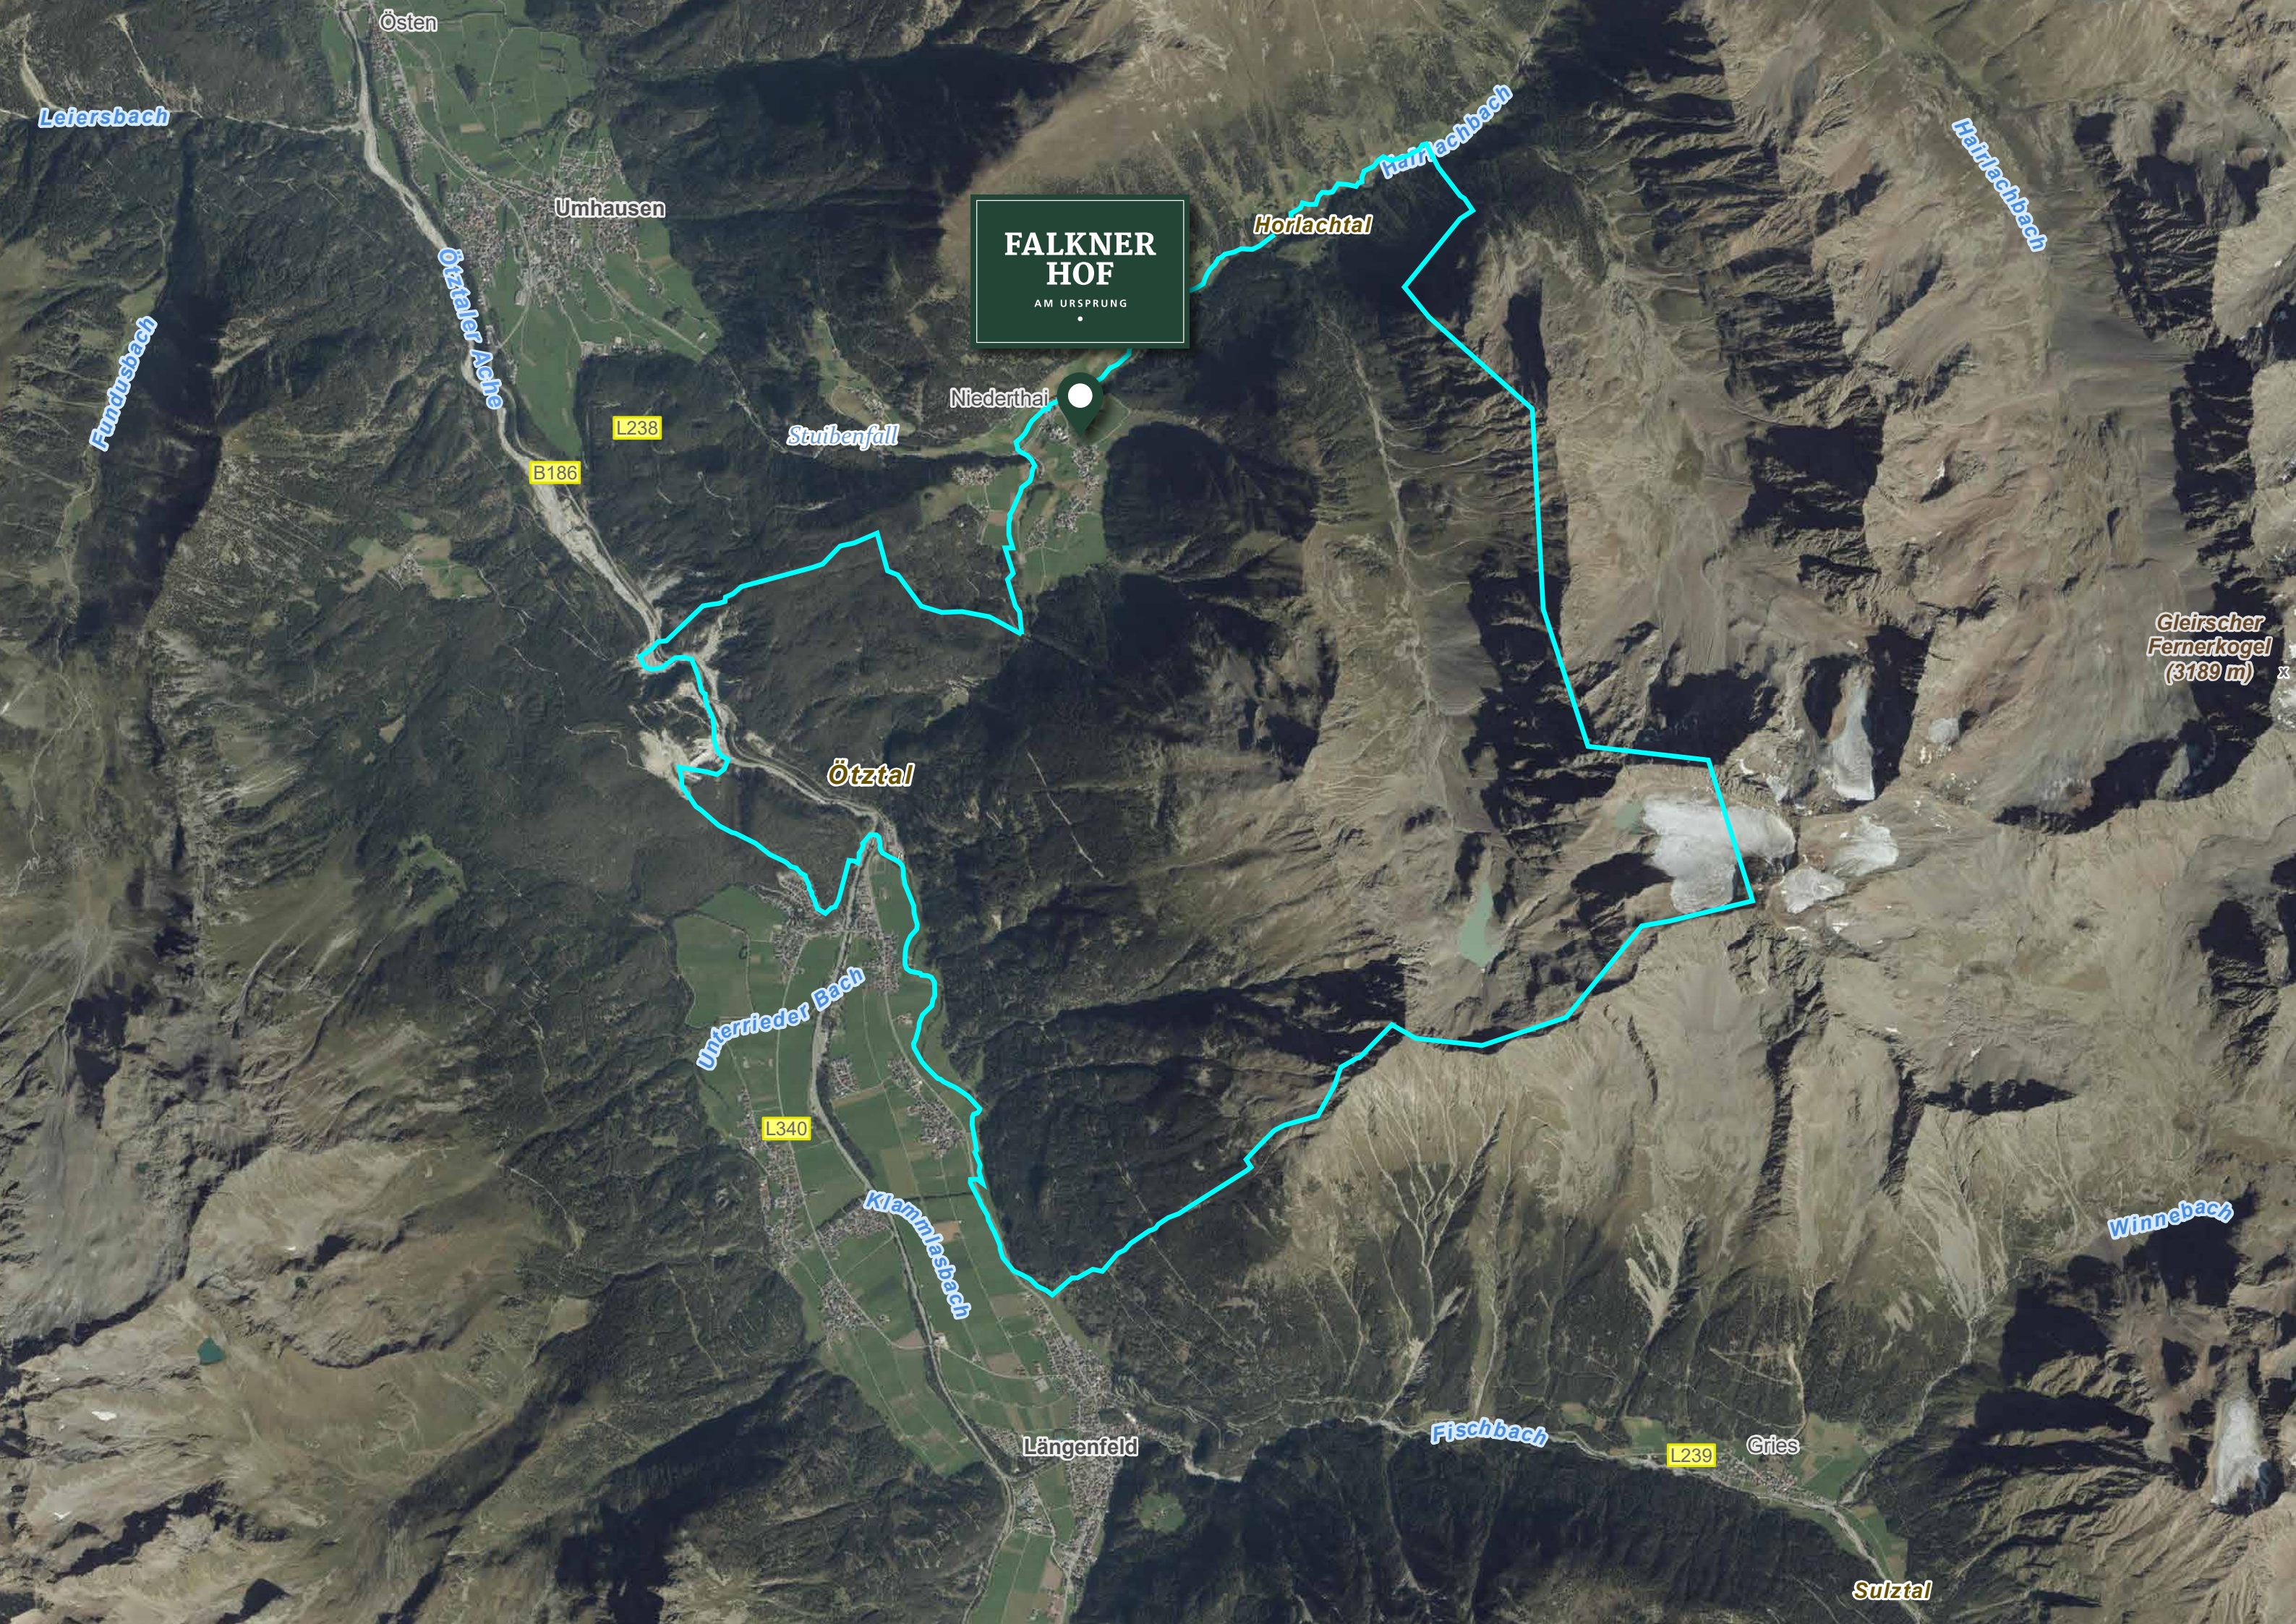

HARD FACTS

Total hunting area: approx. 2,300 ha

From valley floor to above the tree line – up to the glacier region

Mountains within the hunting area:

Hemerkogel	2,760 m
Hörndle	2,985 m
Strahlkogel	3,288 m
Breiter Grieskogel	3,287 m
Nederkogel	2,755 m

PLATEAU HUNTING TARRENZ NORTH

The Tarrenz North hunting ground stretches across a stunning and diverse landscape featuring moorlands, small lakes, and open high plateaus that span from the Gurgltal valley across the plateau of Obtarrenz all the way to Sinnesjoch. This varied terrain combines mountain hunting, forest hunting, and field hunting, offering a truly unique diversity of hunting experiences.

The area is home to a rich variety of wildlife, allowing for the pursuit of the following game species:

- ▶ Red deer
- ▶ Roe deer
- ▶ Chamois
- ▶ Black grouse
- ▶ Capercaillie

The mix of open meadows and dense forests provides ideal conditions for both stalking and stand hunting.

The territory is managed and maintained by a professional hunter, ensuring sustainable game management. The hunting infrastructure is well developed, supporting ethical and responsible hunting practices. A hunting lodge in a sunny and peaceful location offers the perfect retreat for hunters – well equipped and radiating rustic alpine charm.

Hunting in the Tarrenz North region reflects authentic Tyrolean hunting tradition. Great emphasis is placed on sustainable game management, ethical hunting, respect for wildlife, and a deep connection to nature.

The plateau hunt in Tarrenz North combines outstanding hunting opportunities with a breathtaking landscape. The blend of moorlands, lakes, open highlands, and forests makes this hunting ground a true paradise for both passionate mountain hunters and lovers of traditional Tyrolean hunting.
